ABSTRACT

Comprehensive data on the age group and sex of students attending the State University of New York are presented. Twenty-two statistical tables contain summary data for the entire system and each institutional type within the system. Seventy-seven tables contain headcount arrays of students by age group, sex, graduate and undergraduate enrollment level, and full-time and part-time enrollment for each individual institution of the system. Twenty-seven tables contain summarized historical trend data on all students from fall 1974 through fall 1978 and additional trend data on first-time, full-time students from fall 1975 through fall 1978. All of the later data is presented as percent distributions. Data are also presented on the age group of first-time full-time students at each state university institution during the fall of 1978. Additionally, there is a map locating the institutions of the state university. (SW)

INTRODUCTION

This is the fifth annual report published by the Central Staff Office of Institutional Research and Analytical Studies which provides comprehensive data on the age group and sex of students attending the State University.

The major tables included in this report array four fundamental student characteristics:

Age Group
Sex
Level (Undergraduate/Graduate)
Load (Part-time/Full-time)

The main body of this report is divided into three sections; these sections and their contents are organized as follows:

Part I (tables 1 through 22) - Part I contains summary data for the entire system and each institutional type within the system. For each of the headcount tables in this section there is a corresponding table providing percent distribution arrays of the headcount data.

Part II (tables 23 through 99) - Part II contains headcount arrays of students by age group, sex, full and part-time enrollment, and undergraduate and graduate enrollmeat level for each individual institution of the State University system.

Part III (tables 100 through 127) - Part III contains summarized historical trend data on all students from Fall 1974 through Fall 1978 and additional trend data on first-time, full-time students from Fall 1975 through Fall 1978. All of the data in this part is presented as percent distributions. The tables are organized as follows:

- Tables 100 through 110: Trend data for undergraduate students; tables are provided for each institutional type as well as a system-wide summary.
- Tables 111 through 116: These tables provide trend data for graduate students; tables are provided for institutional types and system-wide.
- Tables 117 through 127: These tables provide trend data from Fall 1975 through Fall 1978 for full-time, first-time undergraduate students only. Again, tables are provided for each institutional type in addition to a system-wide summary.

Part IV of the report contains tables pertaining to the age group of first-time full-time students at each State University Institution during the Fall of 1978. In addition there is a map locating the institutions of the State University, and list of this office's publications.

We would like to thank those individuals on the campuses who are responsible for providing this office with timely and accurate data. The collection of this data required their extensive cooperation and continued effort. Our gratitude is also extended to the statistical staff of Mses. Bracy, Gorden, and Hallenbeck who were responsible for editing and verifying the data; and the typing staff of Mses. DeCrescenzo, Dickson and Jegier who prepared the final typescript for publication; and Ms Mazzone who was responsible for the proper distribution of the publication.
